Workload Workshops

by Louise Ripley, Communications Officer

30 Apr 07 - Arthur Hilliker and Scott Forsyth are getting their act together and taking it on the road. YUFA's President and 2006 / 07 Chief Negotiator have been meeting with YUFA members across the University, including the Chairs of many departments, to discuss reductions in workload and teaching load flowing from the new Collective Agreement. Meetings may also include Deans / Principals and other representatives of the Employer who are making an effort to ensure that this process works. Arthur and Scott have been warmly received by our members. If you wish to have a meeting to discuss workload issues in your unit, contact your steward or the [YUFA Office](#) (416-736-5236).
