

## **Faculty of Education**

### **0.5 Research Release Criteria**

- Adjudication of research release applications for the Professorial stream will consider the last **three years** of research activity
- Faculty members will be required to submit an up to date CV and short narrative discussing their on-going research activities in relation to each of the contractually defined areas (see below).
- While Faculty members need not meet the specified criteria in all three areas; the minimal expectation is that faculty will normally demonstrate evidence of ongoing research activity across areas that lead to and include peer reviewed or critically reviewed dissemination.

#### ***1. Dissemination of research in the form of peer reviewed (or critically reviewed) publications and/or creative/scholarly activities.***

Criteria for research release:

- 4 peer-reviewed/ critically reviewed publications over three years, or equivalent reviewed publications as specified below

#### Evidence of dissemination:

- Published articles in journals, book chapters, and essay reviews
- Publication of books and/or edited volumes
- Publication of textbooks, manuals, and guides
- Videos, electronic games, or other technological platforms for public use
- Recognition through major awards for research
- Documented research in the area of community engagement (whether oral or written)

## ***2. Applications for external grants as well as successful external grants awarded:***

Criteria for research release:

- 2 applications for research grants or fellowships over three years; or 1 successful external grant application
- Evidence of 1 peer reviewed or critically reviewed publication
- Evidence of 2 on-going research activities

### Evidence of grant activity:

- Application for external grants, including tri-council grants, government grants, foundation grants, arts grants, and other external awards and distinctions.

## ***3. Evidence of on-going research activity that is reasonably expected to result in dissemination of research outcomes/scholarly and creative activity as specified in #1.***

Criteria for research release:

- Documentation of 5 research/scholarly activities or equivalent activity over 3 years
- 1 referred or critically reviewed publication as specified in #1

### Evidence of On-going Research Activities:

- Articles or chapters under review in journals or edited collections
- Book length projects under contract with a press
- Public presentations at referred conferences, keynotes, public events, and video production
- Journal or Book editorships
- Documentation of international partnerships and scholarly exchange
- Documentation of involvement in qualitative or quantitative data collection and analysis, archival work, development of

theoretical models, design of research instruments, and/or primary research

- Documentation of collaborations and partnerships with organizations; for example, NGOs, Community service organizations, schools, and/or sectors of populations
- Planning, organization, or the carrying out of conferences, symposiums, and workshops
- Supervision of postdoctoral fellows
- Published abstracts and/or interviews
